

## **William W Nazaroff**

Daniel Tellep Distinguished Professor  
Civil and Environmental Engineering Department  
University of California  
Berkeley, CA 94720-1710 USA  
Telephone: (510) 642-1040  
E-mail: nazaroff@berkeley.edu

### **Experience**

Professor, Department of Civil and Environmental Engineering, University of California, Berkeley (Assistant Professor 1988-1992; Associate Professor 1992-1996; Professor 1996-).

Visiting Professor, International Centre for Indoor Environment and Energy, Department of Mechanical Engineering, Technical University of Denmark, Lyngby, June-August 2001, September-December 2006.

Visiting Professor, Department of Civil Engineering, Technion — Israel Institute of Technology, Haifa, Israel, 1996-1997.

Faculty Senior Scientist, Environmental Energy Technologies Division, Lawrence Berkeley National Laboratory (Faculty Scientist 1988-2008; Faculty Senior Scientist, 2008-).

Staff Scientist, Indoor Environment Program, Lawrence Berkeley Laboratory, 1980-1988.

### **Education**

Ph.D., 1989, Environmental Engineering Science, California Institute of Technology;  
Dissertation: Mathematical modeling and control of pollutant dynamics in indoor air.

M.Eng., 1980, Electrical Engineering and Computer Science, University of California, Berkeley.

B.A., 1978, Physics, University of California, Berkeley.

### **Research Interests**

Indoor air quality, emphasizing the following topics: pollutant-surface interactions; transport/mixing phenomena; aerosols; environmental tobacco smoke; source characterization; control techniques

Exposure analysis: development and application of methods for assessing exposure to air pollutants

### **Awards and Distinctions**

Doctor Technices, Honoris Causa, Technical University of Denmark (“in recognition of outstanding contributions advancing understanding of the physics and chemistry that control human exposure to pollutants in indoor environments”), 2015.

Best papers of 2013 (2<sup>nd</sup> runner up in environmental science), Weschler CJ, Nazaroff WW, Dermal uptake of organic vapors commonly found in indoor air, *Environmental Science & Technology* **48**, 1230-1237, 2014.

QSI Best Application Paper Award, IEEE International Conference on Automation Science and Engineering — CASE 2013 (K Weekly et al., Low-cost coarse airborne particulate matter sensing for indoor occupancy detection), Madison, Wisconsin, 17-21 August 2013.

Top paper of 2011 (second runner-up among feature articles), McKone TE, Nazaroff WW, et al., Grand challenges for life-cycle assessment of biofuels, *Environmental Science & Technology* **45**, 1751-1756, 2011.

Elected AAAR Fellow, American Association for Aerosol Research, 2009.

Daniel Tellep Distinguished Professor, University of California, Berkeley, 2009-.

Outstanding Faculty of the Year 2008, FAA Air Transportation Center of Excellence for Research in the Intermodal Transport Environment.

Best paper, American Industrial Hygiene Association Indoor Environmental Quality Committee, 2005 (Nicas M, Nazaroff WW, and Hubbard A, Toward understanding the risk of secondary airborne infection: Emission of respirable pathogens, *Journal of Occupational and Environmental Hygiene* **2**, 143-154, 2005).

Excellence in Review Award, *Environmental Science & Technology*, **37**, 414A, 2003.

Roy W. Carlson Distinguished Professor, University of California, Berkeley, 1998-2001.

Best paper, 20<sup>th</sup> Annual Conference, Air Infiltration and Ventilation Centre, Edinburgh, Scotland, 9-13 August 1999 (Sippola MR, Nazaroff WW, and Thatcher TL, Particle deposition from turbulent duct flow, in *Indoor Air 99 — Proceedings of the 8<sup>th</sup> International Conference on Indoor Air Quality and Climate*, BRE, Garston, Watford, UK, Vol. 2, pp. 24-29, 1999).

Elected member, International Academy of Indoor Air Sciences, 1991.

Presidential Young Investigator, National Science Foundation, 1990.

Bachelor's degree awarded with "great distinction in general scholarship," 1978.

Phi Beta Kappa, 1978.

### **Courses Developed and Taught**

CE 107, Climate Change Mitigation, 3-unit upper-division undergraduate course (12 offerings, 2003-2017).

CE 109, Indoor Air Quality, 3-unit upper-division undergraduate course (6 offerings at UC Berkeley, 1993-2001; one offering at Technion, 1997).

CE 111, Environmental Engineering, 3-unit upper-division undergraduate course (24 offerings, 1989-2015).

CE 218A, Air Quality Engineering, 3-unit graduate course (11 offerings, 1989-2002; cotaught 2016 and 2017).

CE 218B, Atmospheric Aerosols, 3-unit graduate course (12 offerings, 1990-2013).

CE C293A/ER C293A, Technology and Sustainability, 2-unit graduate course (1<sup>st</sup> offering, F 2005) [with A Horvath and AJ Gadgil].

#### *Seminars and Study Groups (1-unit each):*

Airheads [graduate student research seminar in air quality engineering] (each fall semester since 1995) [with RA Harley].

Environmental Engineering Graduate Student Research (4 offerings, 1993-1996).

Relative Humidity in Indoor Environments (Spring 2001) [with RL Corsi].

Sustainability and the Built Environment (Fall 2001) [with AJ Gadgil and A Horvath].

Technologies for Sustainable Societies (8 offerings, 2002-2013) [with AJ Gadgil, A Horvath, A Agogino].

Atmospheric Science on Particulate Matter [NARSTO Review] (Spring 2002) [with RA Harley].

### **Academic and Research Affiliations (UC Berkeley)**

Energy and Resources Group (<http://erg.berkeley.edu/>)

Environmental Health Sciences (<http://ehs.sph.berkeley.edu/>)

Center for Occupational and Environmental Health (<http://coeh.berkeley.edu/>)

Center for Atmospheric Sciences (<http://www.atmos.berkeley.edu/>)

Center for the Built Environment (<http://www.cbe.berkeley.edu/>)

SinBerBEST — Building Efficiency and Sustainability in the Tropics  
(<http://sinberbest.berkeley.edu/>)

### **Academic Administrative Responsibilities**

#### *Civil and Environmental Engineering Department:*

Curriculum committee, 2009-2011, 2012 (Sp) (chair)

Development and awards committee, 2012-2014 (chair)

Executive committee, 1997-2001, 2009-2011, 2012 (Sp)

Faculty search committees, 1991-1992, 1994, 1999-00 (chair), 2003-04 (chair), 2005-06, 2007-08

Graduate admissions/affairs, 1993-1994

Graduate admissions officer, Environmental Engineering Program, 2015-2016

Graduate major-field advisor, Environmental Engineering Program, 1990-1996, 1997-2004  
(lead adviser), 2012-2014

Group leader, Environmental Engineering Program, 1997-2001

Outreach committee, 2004-05

Space planning committee, 1998-99

Strategic planning committee, 1992-1994, 2001-2003 (chair)

Undergraduate admissions committee, 1989-1993

Undergraduate advisor, 1989-1990, 2004-06, 2007-2008

Undergraduate studies committee, 1989-1993, 1994-1996 (chair)

Vice-Chair (Academic Affairs), 2009-2012

#### *College of Engineering:*

Continuing Education committee, 1994-1996

Graduate studies committee, 2009-2011, 2012 (Sp)

Environmental Engineering committee, 1993-1996

Undergraduate studies committee, 1994-1996, 2009-2011, 2012 (Sp) (chair)

#### *University (Berkeley campus):*

Committee on Prizes, 1994-1996, 1997-2003 (chair 2000-2003)

Environmental Council Executive Committee, 1994-99

Committee on Undergraduate Instruction in Environmental Studies, 1995-1996

Chair, Energy and Resources Group, 2004-2008

Academic Senate Liaison for External Review of Department of Environmental Science,  
Policy and Management, 2011-2012.

*Other University Service:*

Faculty search committees: Biomedical and Environmental Health Sciences, 1993; Energy and Resources Group, 1997-98; Energy and Resources Group, 2001-02  
Air Quality Management Advisory Committee, UC Berkeley Extension, 1992-97  
Committee on Atmospheric Sciences, College of Letters and Science, 1994-96  
Environmental Council Working Group, University of California, Berkeley, 1993-94  
Environmental Sciences Advisory Committee, Division of Undergraduate and Interdisciplinary Studies, 1994-95  
Advisory Committee, UC Toxic Substances Teaching and Research Program, Health Effects of Modern Technologies Component, 1997-2004  
Intercampus Advisory Committee, University of California Energy Institute, 2007-2010

**Graduate Student Research Supervision**

Master of Science (does not include those who continued for PhD study under my supervision)

J Wooley, 1990	AV Baughman, 1991	JA Cano-Ruiz, 1992
RB Balas, 1993	A Wadhwa, 1993	C Lobascio, 1993
D Wampler, 1994	K Leiserson, 1995	S Branoff, 1997
B Pekala, 1998	W Yin, 2000	A Webb, 2001
HY Hammer, 2001	AS Hoats, 2002	K Blumberg, 2003
F Kamakate, 2005	S Cowlin, 2006	

Master of Engineering

D Kong, 1992

Doctor of Philosophy (dissertation title)

1. K Garbesi, 1993, Toward resolving the model-measurement discrepancy of radon entry into houses
2. T-F Lin, 1995, Transport and sorption of volatile organic compounds and water vapor in porous media
3. AC Drescher, 1995, Computed tomography and optical remote sensing: Development for the study of indoor air pollutant transport and dispersion
4. WJ Riley, 1996, Wind-induced contaminant transport in near-surface soils with application to radon entry into buildings
5. TL Thatcher, 1996, Particle dynamics in the indoor environment with an emphasis on particle deposition from natural convection flow
6. SL Miller, 1996, Characterization and control of exposures to indoor air pollutants generated by occupants
7. MD Van Loy, 1998, Dynamic behavior of semivolatile organic compounds in indoor air
8. GC Morrison, 1999, Ozone-surface interactions: Investigations of mechanisms, kinetics, mass transport, and implications for indoor air quality
9. D-L Liu, 2002, Air pollutant penetration through airflow leaks into buildings
10. MR Sippola, 2002, Particle deposition in ventilation ducts
11. NE Klepeis, 2004, Using computer simulation to explore multi-compartment effects and mitigation strategies for residential exposure to secondhand tobacco smoke
12. JD Marshall, 2005, Inhalation of motor vehicle emissions in urban environments
13. WR Chan, 2006, Assessing the effectiveness of shelter-in-place as an emergency response to large-scale outdoor chemical releases

14. GA Heath, 2006, Redistributing pollution: Exposure implications of a shift toward distributed electricity generation in California
15. P Sreedharan, 2007, Bayesian based design of real-time sensor systems for high-risk indoor contaminants
16. BK Coleman, 2009, Exposure-relevant ozone chemistry in occupied spaces
17. A Shehabi (coadvised with A Horvath), 2009, Energy demands and efficiency strategies in data center buildings
18. S Bhangar, 2010, Human exposure to dynamic air pollutants: Ozone in airplanes and ultrafine particles in homes
19. N Mullen, 2011, Characterizing ultrafine particle exposures in two types of indoor environments: San Francisco Bay area classrooms and Beijing high-rise apartments
20. J Apte, 2013, Human exposure to urban vehicle emissions

### **Sponsored Research**

- Release of ethanol to the atmosphere during use of consumer cleaning products, The Soap and Detergent Association, 1989.
- Release of 2-aminoethanol and 1,2-propanediol to the atmosphere during use of liquid laundry detergent, Procter and Gamble, 1989.
- Pollutant deposition from natural convection flow onto indoor surfaces, Universitywide Energy Research Group, University of California, 1989-1990.
- Indoor air pollutant transport, dispersion, and interactions with surfaces, National Science Foundation (PYI award), 1990-1995.
- Controlling exposure to environmental tobacco smoke, University of California Tobacco-Related Disease Research Program, 1990-1993.
- Characterization of particulate-phase ETS in differing environments (with R. Sextro and A. Gadgil), University of California Tobacco-Related Disease Research Program, 1990-1993.
- Particle deposition from natural convection flow onto indoor surfaces, Exploratory Research Grant, U. S. Environmental Protection Agency, 1991-1994.
- Indoor ozone concentrations: Quantification of mechanisms of outdoor concentration attenuation (with M. Modera), California Institute for Energy Efficiency, 1991-1992.
- Soil-gas transport: A mechanism of indoor exposures to volatile organic compounds (with J. Daisey and R. Sextro), National Institutes for Environmental Health Sciences, 1992-1995.
- Effectiveness of portable filtration units in TB control (with R. Spear), E. R. C., Inc., 1993-1995.
- Pollutant mixing in indoor air, California Institute for Energy Efficiency, 1994.
- Engineering controls for reducing tuberculosis exposure, California Department of Health Services, 1995-1996.
- Fate of volatile organic compounds in indoor air, SC Johnson Wax, 1995-97.
- Assessing exposure to air toxics from environmental tobacco smoke, California Air Resources Board, 1995-1998.
- Mathematical modeling of bipolar ion generation systems, Ion Systems, 1996.
- Particle deposition in ventilation system ducts, Lawrence Berkeley National Laboratory, 1998-1999.

Dynamic behavior of particles and vapors in buildings, Lawrence Berkeley National Laboratory, 1998-2002.

Air pollutant exposure associated with distributed electricity generation, California Air Resources Board, 2002-2003.

Indoor air chemistry: Cleaning agents, ozone and toxic air contaminants, California Air Resources Board, 2002-2005.

Quantifying exposure implications of distributed energy generation, University of California Energy Institute, 2003-2004.

Air Transportation Center of Excellence for Airliner Cabin Environment Research, Federal Aviation Administration (Auburn University, Purdue University, Harvard University, Boise State University, Kansas State University, Lawrence Berkeley National Laboratory, UC Berkeley, and University of Medicine and Dentistry of New Jersey), PI of UC Berkeley component, 2004-2010.

Ultrafine particle concentrations in schoolrooms and homes, California Air Resources Board, 2006-2009.

Influence of aerosol dynamics on microbial materials in indoor environments, Sloan Foundation, 2008-2013. (PI on subaward of prime grant to Yale University, J Peccia, PI)

Life-cycle environmental and economic decision-making for alternative biofuels, Energy Biosciences Institute, 2008-2013 (Responsible for “air emissions and air quality impacts from the lifecycle of biofuels,” on multi-investigator team, A Horvath & TE McKone, co-PIs)

Berkeley Indoor Microbial Ecology Research Center (BIMERC), Sloan Foundation, 2010-2018, T Bruns, PI.

Building efficiency and sustainability in the tropics (SinBerBEST), Singapore National Research Foundation, 2012-2017 (Thrust co-lead for human/building interactions and the environment), C Spanos, PI.

Analysis of the ICU room environment as a source of microorganisms colonizing the GI tract of premature infants, Sloan Foundation, 2013-2015, J Banfield, PI.

Emissions from humans affect indoor air chemistry, Sloan Foundation, 2014-2019, WW Nazaroff, PI (2014-2015), AH Goldstein, PI (2016-).

Analysis of dispersal and persistence of microbial strains in the room environment, Sloan Foundation, 2016-2019, J Banfield, PI.

### **Services to the Profession (current)**

Editor, *Indoor Air* (Editor-in-Chief, 2010-; Associate Editor, 2007-2009)

Member, Committee on Advancing Understanding of the Implications of Environmental-Chemical Interactions with the Human Microbiomes, National Academies of Science, Engineering and Medicine, 2016-2018.

Vice President, Indoor Air Institute, 2005-

### **Services to the Profession (past)**

*1980-1989*

Associate Editor, *Health Physics*, 1987-1990

Environmental Chemistry and Physics—Air, Proposal Review Panel, U.S. EPA, 1987, 1991

Interviewer, Switzer Foundation Environmental Fellowships, 1988-1992

*1990-1999*

Session organizer and chair, “Indoor Air Quality: Sources, Sinks, Transport, and Transformation”, Air & Waste Management Association, 85th Annual Meeting, Kansas City, MO, June 1992

Session organizer and chair, “Indoor Air Quality Science and Technology,” Air & Waste Management Association, 86th Annual Meeting, Denver, CO, June 1993

Editorial Board, *Environmental Software*, 1993-1995

Publications Committee, American Association for Aerosol Research, Vice-Chair: 1994-1995

University Education Committee, Air & Waste Management Association, Secretary: 1992-1994, Vice-Chair: 1994-96

Associate Editor, *Journal of the Air & Waste Management Association*, 1995-2007

Membership Committee, International Academy of Indoor Air Sciences, Chair: 1996-1999

Risk Assessment Advisory Committee, Office of Environmental Health Hazard Assessment’s Science Advisory Board, California Environmental Protection Agency, 1995-1996

Editorial Committee (guest, 1997), *Annual Review of Energy and the Environment*, **24**, 1999

Indoor Air Health Advisory Committee, NSF International, 1999

Board of Directors, American Association for Aerosol Research, 1999-2002

Executive Advisory Board, UltraViolet Devices, Inc., 1998-2004

*2000-2009*

Poster jury (chair), Healthy Buildings 2000, Espoo, Finland, August 2000

Research Screening Committee, California Air Resources Board, 2000-2002

Awards Committee, Association of Environmental Engineering and Science Professors, 2000-2003

Committee on Air Quality in Passenger Cabins of Commercial Aircraft, National Research Council, 2000-2001

Search Committee, Department Head, Indoor Environment Department, Lawrence Berkeley National Laboratory, 2000-2001 (chair)

Co-chair, US delegation, U.S. — Italian Bilateral Workshop on “New Technologies and Cultural Heritage”, Venice, Italy, April 2001

Expert Panel, Indoor Air Quality, US EPA Radiation and Indoor Environments National Laboratory, November 2001

Editorial Advisory Board, *Indoor Air*, 2001-2006

Vice-President, Organizing Committee for Indoor Air 2002, 9<sup>th</sup> International Conference on Indoor Air Quality & Climate, Monterey, California, 30 June – 5 July 2002

Tutorials Chair for Annual Meeting, American Association for Aerosol Research, 2003

Scientific Advisory Committee, Strategically Targeted Research for Intelligent Built Environmental Systems, Syracuse University, 2005-2007

Board of Directors, Golden West Section, Air & Waste Management Association, 2003-2007

Poster jury (chair), First International Conference on Building Energy and Environment, Dalian, China, July 2008

Conference Chair, 27<sup>th</sup> Annual Meeting of the American Association for Aerosol Research (AAAR), Orlando, FL, 20-24 October 2008

External Advisory Board, National Science Foundation Integrative Graduate Education & Research Traineeship (NSF-IGERT) on Indoor Environmental Science & Engineering — An Emerging Frontier, The University of Texas at Austin, 2006-2009

International Advisory Board, International Centre for Indoor Environment and Energy, Technical University of Denmark, 2001-2007

2010-

Editorial Board, *Building Simulation: An International Journal*, 2007-2012.

Committee on the effect of climate change on indoor air quality and public health, Institute of Medicine of the National Academies, 2010-2011.

Scientific Review Panel on Toxic Air Contaminants, California Environmental Protection Agency, 2010-2013.

Officer, American Association for Aerosol Research, 2009-2013 (Vice-President Elect 2009-2010, Vice-President 2010-2011, President 2011-2012, Past-President 2012-2013).

Executive Committee, Academy of Fellows, International Society of Indoor Air Quality and Climate: Secretary 2005-2008; Vice President 2008-2011; President 2011-2014.

Chair, Planning Committee, Workshop on the Health Risks of Indoor Exposure to Particulate Matter, The National Academies, 2015-2016.

#### *General Support of Conferences, Journals and Funding Agencies*

International scientific committee for conferences: Indoor Air '99 (Edinburgh, Scotland); Healthy Buildings 2000 (Espoo, Finland); 4<sup>th</sup> International Conference on Indoor Air Quality, Ventilation and Energy Conservation in Buildings, IAQVEC 2001 (Changsha, China); Seventh International Symposium on Natural Radiation Environment (NRE-VII) 2002 (Greece); Indoor Air 2005 (Beijing, China); Indoor Air 2008 (Copenhagen, Denmark); COBEE 2008 (Dalian, China); Indoor Air 2011 (Austin, TX); Healthy Buildings 2012 (Brisbane, Australia); Indoor Air 2014 (Hong Kong).

International advisory board for conferences: Fifth international workshop on energy and environment of residential buildings and third international conference on built environment and public health 2009 (Guilin, China).

Session chair or cochair at national or international conference

- Symposium on Methods for Characterizing Indoor Sources and Sinks, American Society for Testing and Materials, Washington, DC, September 1994
- Engineering Solutions to Indoor Air Quality Problems, Air & Waste Management Association, Research Triangle Park, NC, July 1995
- AAAR 1999, 18th annual conference of the American Association for Aerosol Research, Tacoma, Washington, October 1999
- Indoor Air 99, The 8<sup>th</sup> International Conference on Indoor Air Quality & Climate, Edinburgh, Scotland, August 1999
- Healthy Buildings 2000, Espoo, Finland, August 2000
- Indoor Air 2002, Monterey, California, July 2002

- Indoor Air 2005, Beijing, China, September 2005.
- COBEE, Dalian, China, July 2008.
- Healthy Buildings 2009, Syracuse, New York, September 2009.
- Indoor Air 2011, Austin, TX, June 2011.
- Healthy Buildings 2012, Brisbane, Australia, July 2012.

Peer review of research proposals: Center for Indoor Air Research, Environmental Protection Agency, National Science Foundation, North Carolina Board of Science & Technology, Research Grants Council (Hong Kong), Universitywide Energy Research Group (University of California), Water Resources Center (University of California), Office of Health and Environmental Research (U. S. Department of Energy)

Peer review for archival journals: *Aerosol Science and Technology*, *Air Quality Atmosphere and Health*, *Atmospheric Environment*, *Building and Environment*, *Chemosphere*, *Environmental Pollution*, *Environmental Science & Technology*, *Environmental Software*, *Environmental Technology*, *Geoderma*, *Geophysica Cosmochimica Acta*, *Health Physics*, *HVAC&R Research*, *Indoor Air*, *Industrial & Engineering Chemistry Research*, *Inhalation Toxicology*, *Journal of Aerosol Science*, *Journal of the Air & Waste Management Association*, *Journal of ASTM International*, *Journal of Colloid and Interface Science*, *Journal of Environmental Engineering (ASCE)*, *Journal of Environmental Engineering Science*, *Journal of Environmental Quality*, *Journal of Exposure Assessment and Environmental Epidemiology*, *Journal of Geophysical Research—Atmospheres*, *Journal of Hazardous Materials*, *Journal of Infrastructure Systems (ASCE)*, *Journal of the National Medical Association*, *Journal of Occupational and Environmental Hygiene*, *Journal of the Water Pollution Control Federation*, *Natural Hazards*, *Radiation Measurements*, *Radiation Protection Dosimetry*, *Review of Scientific Instruments*, *Risk Analysis*, *Science of the Total Environment*, *Water Resources Research*

### **Edited Special Issues of Archival Journals**
