

EPA Region 5

77 W. Jackson Blvd.
Chicago, IL 60604

The EPA Region 5 has an excellent opportunity for recent college and graduate students who have an interest in employment with the EPA.

Positions will be available in the following occupation:

Environmental Engineer or Scientist (Recent Graduates Program), GS-7/9, Starting Salary: \$45,703-\$59,412.

The U.S. Environmental Protection Agency, Region 5, Air and Radiation Division, Air Programs Branch is seeking highly qualified, energetic engineers and scientists.

The successful candidate for this position will possess the technical, leadership, and communication skills needed to:

- Communicate policy and procedural guidelines to state, local, and tribal air agencies, and work with them to coordinate the development of required revisions to State Implementation Plans (SIPs) and source-specific SIP actions.
- Review and evaluate portions of straightforward state-submitted SIP revisions for technical, procedural, and/or regulatory adequacy and compliance with Clean Air Act (CAA) requirements; and work with higher-grade specialists to produce technical documentation supporting the Agency's decision on SIP rule making actions.
- Perform assigned portions of professional and technical projects to provide technical assistance to state, local, and tribal air agencies in the control of air pollutants to meet the requirements of the CAA related to the National Ambient Air Quality Standards (NAAQS) and other control programs, including the review, development, or revision of SIPs.

Interested Applicants MUST apply through [USAjobs.gov](https://www.usajobs.gov), CI-R5-OT-2018-0002, Environmental Engineer/Physical Scientist.

Mailed applications will **NOT** be accepted.

Required Documents:

ALL APPLICANTS MUST PROVIDE:

1. Proof of successful completion of required course work (copy of transcripts or a list of courses that show title, credits earned, dates completed and degree awarded if applicable).
2. Resume (which includes the projected graduation date).
